

THE FAST-ACTING, LONG-LASTING, HIGHLY-EFFECTIVE WAY TO SEND FLIES WHERE THEY BELONG.

CHOOSE TRANSPORT® GHP INSECTICIDE FOR FLYING INSECT CONTROL.

Transport® GHP insecticide provides outstanding speed of control against flies and other problem pests. Its unique chemistry also achieves impressive residual protection.

By applying Transport GHP outdoors as a perimeter treatment and indoors around storage areas, closets, water pipes, doors, windows, sinks and other places where flies frequently land, your technicians can deliver high-velocity fly control that's been proven to reduce costly and time-consuming callbacks.

Transport GHP insecticide: an ideal partner in fly control.

- Flexible label allows for indoor and outdoor use
- Formulated for fast knockdown and kill
- Convenient dose packets for easy mixing
- Labeled for the control of over 30 other nuisance pests
